Montana Health Care Programs Notice School-Based Services (CSCT Mental Health Agencies)

Effective January 1, 2012

Comprehensive School and Community Treatment (CSCT) Team Number on 5010 Electronic Claim (837P) Transactions

Per the X12 5010 Health Care Claim: Professional Technical Report Type 3 (TR3) document, the CN1 Contract Information segment in Loop 2300 can only be used for post-adjudication claims, which do not meet the definition of a health-care claim under HIPAA.

Effective January 1, 2012, all electronic claims must be submitted in the 5010 format. Therefore, Montana Health Care Programs will not accept the Comprehensive School and Community Treatment (CSCT) team number in Loop 2300, segment CN1 on or after this date.

Instead, the team number should be submitted on the HIPAA 5010 837P transaction in Loop 2300, NTE Note segment as the first two characters of the NTE02 data element. The qualifier value in NTE01 Note Reference Code should be ADD (Additional Information). In the example below, the team number indicates CSCT team 02.

NTE*ADD*02~

This is the only place Montana Health Care Programs will be accepting the CSCT team number. Contact your software vendor and/or clearinghouse to ensure they have this information.

For additional information regarding changes to the electronic transactions, refer to the 5010 X12 Technical Reports (TR3) documents available from Washington Publishing Company at <http://www.wpc-edi.com/content/view/67/96/>.
